

# 3 Simple Tips For Preventing Water Damage

Water is one of the biggest causes of property damage. It can be costly and disruptive for all of us. Keep these simple tips in mind to avoid water damage.

1

## Use Appliances Correctly

Misuse of appliances can lead to unnecessary leaks or spills. Overloading washing machines, for example, can cause machines to shake, leading to loosened connections and leaks.

## Be Careful with Drains

Avoid clogging your drains by not disposing of grease or other hard-to-dissolve items in sinks or toilets. Consider drain catchers can help too.

2

3

## Report Leaks Immediately

If you notice a leak, report it to your property manager as soon as possible to prevent further damage.
